

SEELEY COUNTY WATER DISTRICT

1898 West Main Street (P.O. Box 161) Seeley, CA 92273

Telephone: 760.352.6612 Facsimile: 760.352.0589

Board President: Patrick Harris

Board Members: Jason Grima, Keith Baird, Esteban Jaramillo, Leslie Hill

REGULAR MEETING

Date: April 9, 2018, MONDAY

Where: SCWD Office, 1898 W. Main Street, Seeley CA 92273

Time: 6:30 PM

1. Call to Order
 - a. Pledge of Allegiance
 - b. Quorum - Roll Call
2. Discussion of the Agenda
 - a. Items to be pulled from the Action Calendar.
 - b. Items to be pulled from the Discussion Calendar.
 - c. Emergency Items to be added.
 - d. Approval of the agenda.
3. Board Member Reports / Announcements.

PUBLIC COMMENT

This is the opportunity for the members of the public to address the board on any matter within the Board's jurisdiction. Any action taken as a result of public comment shall be limited to direction to staff. State your name for the record prior to providing your comments. Please address the board as a whole, through the chairman. Individuals will be given (3) minutes to address the board. Public comments will be limited to a maximum of 21 minutes. The public will be allowed to comment on specific items on the agenda after board discussion.

DISCUSSION CALENDAR SECTION I

4. Engineer's Report: The Holt Group, Jack Holt
5. Secretary Report
 - a. Financial Reports
 - b. Miscellaneous/Correspondence
 - c. Payroll summary

6. Chief Operators Report
 - a. Accomplished Tasks
 - b. Water Treatment Plant Reports and Laboratory Results
 - c. Waste Water Treatment Plant Reports and Laboratory
 - d. Dumper Station
 - e. Violations/Correspondence

CONSENT CALENDAR SECTION I

Any consent item can be removed from the consent list by request of the board or any member of the public for consideration separately.

7. Demands (Accounts Payable)
8. Approval of Minutes: REGULAR MEETING February 12, 2018
9. Authorize 4 Administrative days for the President of the Board for the month of January 2018.
10. Approval of the purchase of Sodium Hypochlorite for Water Treatment Plant from Brenntag Co. for a total cost not to exceed in the amount of **\$1,145.12** (tax and freight included).
11. Approval of purchase of routine office supplies (paper, stamps and cleaning supplies for office (envelopes, copy paper, toner for printers and copier, toilet paper, paper towels, eight rolls of postage stamps, cleaning liquid, trash liners/bags, dish soap, bathroom cleaner, disposable water/coffee cups) not to exceed **\$750.00** {Sparkllets drinking water service **\$50.87**} [**\$400** for stamps alone].
12. Approval for the purchase of 2 boxes Honeywell Circular Chart Paper, and 2 packs each of red/purple Universal Chart Pens for Circular Recorders total not to exceed **\$295.67** (price includes estimated tax and shipping costs)
13. Approval for the purchase of a Hach CYN-3 Cyanide test kit from USABluebook in the amount of **\$226.81** (price includes estimated tax and shipping costs)
This item will be used for testing dumpers for Cyanide. It cannot test low enough as required by our waste permit but it will give us a positive or negative read for dumpers which will help us narrow down our search for possible cyanide sources. So, this may be a cost that can be applied to the compliance project.
14. Approval for the purchase of *Hach Spec Check Chlorine Color Secondary Standards* for WTP handheld chlorine analyzer (1 set) and *USA Blue Book brand dechlorinating tablets* (1 - 45lb pail) for WTP emergency water dechlorinating from USABluebook in the amount of **\$390.65** (price includes estimated tax and shipping costs)

DISCUSSION/ACTION CALENDAR

15. Discussion of changes to the Westerra buy-out schedule of the (“PPA”) Solar Energy Power Purchase and Sale Agreement, cost increased, from \$280,000 to \$413,000 because system is entirely a permanent carport versus mobile and ground mount. The Cost of the Carport will be absorbed by Westerra due to the increase in size of the proposed carport. This does not affect the contracted price of the electricity nor does it affect any of the other contract terms. The buy-out schedule similarly sets the price that Seeley would pay to buy the facility from Westerra if it elects to do so as permitted under the contract on the 8th year. Right now, if Westerra keeps the pace, Westerra could see construction begin in the next few months and wrap up sometime in mid-summer. The EPC team came onsite on March 29 of 2018 for a final design and parking structure placement.

In addition, there are two new 20HP pumps that were just installed, together with a control board and ac system that are supposed to begin operating in the next few months and which are supposed to run continuously to circulate treated water. This could substantially increase the amount of SCWD’s consumption which would could offset, and reduce cost.

16. Discussion/Action the Board to review and approve the draft preliminary concepts graphic for Bates Park from Kimley-Horn and Associates. A few things to keep in mind:

- These are preliminary concepts used to explore horizontal relationships and program elements only, the final master plan will include more refinement & detail.
- Concept elements are interchangeable (Ramada area from Concept A could be combined with pathway from Concept B to create the final master plan)
- The board is to approve concepts before releasing the designs to the public.
- In Addition, Kimley-Horn has provided a questionnaire, for public comment and community involvement, the questionnaire will help to gain additional input on the graphic(s). If there are any major comments, we should update the questionnaire before releasing it to the public.

Once both questionnaire, and preliminary concept are approved, they will be uploaded to SCWC’s webpage and disbursed to the public through the District Office. In addition, we will also send out announcement by e-blast for those customers whom we have an email for. The public will have until May 11th to comment and turn in the questionnaire.

17. **Discussion/Action** to appoint a Presiding Officer (and potentially an alternate) for Seeley County Water District for the purpose of participating in a Special District Selection Committee pursuant to communication received from LAFCO (see attachment A). Should the board decide to participate in the selection committee, while voluntary, such appointment shall be by way of Resolution (see draft attached).

- *The presiding officer or alternate that sits on the committee can vote on who is appointed to the RDA Oversight Board, and also if the special districts are on the LAFCO commission, they can vote on who is appointed. As for other duties, it’s not a monthly committee meeting, may only be once a year if necessary.*

18. **Discussion/Action** On April 3 of 2018 a meeting took place with the County Planning Department, to discuss the Coyne Ranch Specific Plan. It has been determined that Seeley County Water District (“SCWD”) is to take the following actions to be prepared for any new development within SCWD’s area of influence.

1. Adopt a **Resolution** - Establishing Additional Fees and Deposits for Engineering Activities – Engineers to review plans/studies for Seeley County Water District. Resolution 2018- has been drafted for review and to be placed on the next regular board meeting for approval.
2. Once the plans are done, and the project gets started, the developer will want a Will Serve Letter from SCWD. We will provide that, and a bill for capacity fees.
3. **Connection fees-** (*Currently in place, but will need to be amended to add actual cost*). Charged after inspection of connection for Actual Cost (man hours and equipment) and invoiced by SCWD to customer.
4. Adopt a **Resolution-** establishing a cost recovery method for service costs of new development within the District’s Service Area. To be drafted
5. Adopt an **Ordinance-**establishing a cost recovery method for service costs of new development within the District’s Service Area. – This is designed to cover additional impacts to SCWD. Example SCWD has to provide hauled waste processing, solid waste, and water and sewer services. This ordinance gives SCWD the ability to establish special taxes or charge the developer to mitigate the impacts. To be drafted.
6. Adopt a **Resolution** – establishing an inspection fee and review of tentative maps. To be drafted
7. Adopt a **Resolution** – establishing fees for inspection and related administrative work for subdivisions and public improvements. To be drafted.

19. Discussion/Action Seeley County Water District to review draft Resolution 2018-__ to establish Additional Fees and Deposits for Engineering Activities.

20. Discussion/Action Seeley County Water District seeking a proposal from The Holt Group to review the Coyne Ranch Specific Plan for the Water and Wastewater Studies, this is to determine how the Coyne Ranch project can be served and what improvements if any need to be made. After the Holt Group completion of review, a “comment letter” is to be drafted for submission to the County Planning Department for the Coyne Project.

- Once the County approves the project, if they approve it, then Coyne will have to file an application with LAFCO to include the area, and Seeley County Water District will have to update the Service Area Plan.

21. Discussion/Action seeking approval from the Board to accept the Ad-Hoc Committee (Directors Hill and Jaramillo) recommendation to accept Hazen and Sawyer as the Engineering group to Plan and Design the Upgrades to the Wastewater Treatment Plant Facility.

22. Discussion/Action seeking approval from the Board to accept the Ad-Hoc Committee (Directors Baird and Hill) recommendation to accept Hazen and Sawyer as the Engineering group to plan and design the Compliance Project.

1. To use the \$216,000 fine issued by (RWQCB) Regional Water Quality Control Board towards the engineering plan, and design to upgrade the dump station site.
2. The design at the dump station to include 2 concrete holding wells, (1 for monitoring: testing of ph. levels, temp, cyanide and copper). Or, to utilize existing Clemson ponds as holding stations for monitoring.

23. Discussion/Action seeking the approval from the Board for the Seeley County Water District Staff, Aaron Garcia Chief Plant Operator to make the proposal for the Compliance Project.

24. Discussion/Action - the Administrative General Manager and Chief Plant Operator are recommending and seeking approval from the Board President, and the Board to form an Ad-Hoc Committee, to explore the pros and cons, costs, and practicality of smart water meter technology for the future of Seeley County Water District by creating an ad hoc committee to view and attend a short presentation and Q&A session, held by a smart meter vendor.

25. Discussion/Action to approve invoices for payment once “pay-requests” are approved and disbursed by USDA, payment is contingent only upon USDA disbursement into the Seeley County Water District Capital Improvement Account, and payment will be to A&R Construction in the total amount of **\$19,902.73** and to The Holt Group in the amount of **\$5,000.00**. Re: Water Treatment Plant TTHM Improvement Project.

26. Discussion/Action to approve required annual calibrations of flow meters and analyzers at both the water and wastewater treatment plant facilities.

Options are as follows:

Option A: Gold Coast Environmental. Total not to exceed **\$4,125**

Option B: RSIS. Total not to exceed **\$1,182**

Option C: DDP Electric Inc. Total not to exceed **\$1,000**

27. Approval of the purchase of a 4” direct read water meter and a No. W7 size meter box for the metering of a currently unmetered irrigation line supplying the John Bates Memorial Park.

A. Meter will be purchased from USA Bluebook. Total not to exceed in the amount of \$1,936.74 (estimated tax and shipping included in costs)

B. Meter box will be purchased from Ferguson. Total not to exceed in the amount of \$247.72 pricing pending.

28. Discussion/Action seeking approval from the Board to purchase a Verizon Cradlepoint for the mobile office which will become the Operator Office (location: water plant) the Cradlepoint includes tier two support for 1 year. An external antennae is recommended for \$160. This will support the office devices, plus the additional security cameras to be installed. The total monthly subscription will be \$37.99 per month and our monthly Verizon bill will not increase, purchase price for the Cradlepoint is \$899. Total purchase not to exceed in the amount for both the antennae and Cradlepoint **\$1059.00**

29. Discussion/Action to purchase exterior steel door with frame system, deadbolt and keyed door knob plus weather-stripping materials for mobile office at the water plant. Total purchases not to exceed in the amount of **\$400.00**

30. Discussion/Action to purchase steps for the mobile office at the water plant.
Option A: Mobile Home Parts Store: Fiberglass steps with safety railing \$356.48, freight shipping \$192.94 and tax \$29.40. Total price not to exceed **\$580.00**
Option B: Upside Access Solutions: Aluminum steps with safety railing \$636, freight shipping \$345. Total price not to exceed in the amount of **\$981.00**

31. Discussion/Action seeking approval for mileage reimbursement for Gary Thornburg-Operator II, for a Free Training he attended "Leak Detection Principles and Water Loss Accountability" Total roundtrip miles 211 x 54.5 per mileage standard rate. Total reimbursement in the amount of **\$115.00**.

32. Discussion/Action seeking approval for mileage reimbursement and Water Treatment Certification Review Training in the amount of \$250 for grades 1&2 for Jonan Medrano-Operator in Training. Total roundtrip miles for 2 days 430 miles x 54.5 per mileage standard rate = \$234.36. Total mileage and training reimbursement in the amount of **\$484.36**.

33. Discussion/Action seeking approval for reimbursement for Wastewater Operator Certificate renewal fee for Amado Ramirez. Total reimbursement not to exceed in the amount of **\$210.00**

33. Discussion/Action seeking the final approval of service man image for the Robert Bates Memorial Park flagstone etching.
Option A. Image of Face
Option B. Image of Full Shaded Service Man

CLOSED SESSION:

22. Conference with Legal Counsel
Anticipated Litigation – Significant exposure to Litigation (54956.9(d) (2) 1 potential cases).

4/6/2018

Updates:

- **General maintenance**
 - Alleys continue to be cleaned on an ongoing basis
 - Desert landscaping project for main office continues
 - All vehicles received their new Seeley CWD decals
- **Water and Water Distribution**
 - WTP unit 2 remains offline. Work on replacing check valves began Friday (4.6.2018). After assembly, unit 2 will be run and special bacti samples will be pulled prior to placing unit back into normal operations
 - After reviewing data and tracer study protocol compiled and prepared by The Holt Group, The DDW cleared Seeley to run THM aeration system without running a tracer study
 - Met with Evan Barrett of Barrett Engineered Pumps regarding a quote to upgrade our distribution pump station and control panel which would include adding two VFD units to our current setup. Currently only three of our five pumps (two 20hp and one 40hp) are run using a VFD. The remaining two pumps (two 40hp) sit unused. Waiting on quote.
 - Dead ends in distribution system continue to receive weekly flushing
- **Wastewater and collection system**
 - We are no longer dosing our Clemson ponds with Copper Sulfate. Waiting to see what the effect is on BOD/TSS levels as well as on our Copper levels and our copper related discharge violations
 - Recirculation valve from WWTP effluent well to Clemson pond #1 was completed. Waiting to see what effect this has on our discharge figures
 - WWTP west oxidation pond aerator 4 repair parts arrived, assembly began Friday (4.6.2018)
 - Project to bring all manhole lids up to grade is continuing. Waiting on an order of 16 grade rings to continue with the project

Wastewater Treatment Plant Discharge Violations under 2017-2022 NPDES Permit

December 2017

- Copper: 162.1ug/l

January 2018

- Copper: 104.2ug/l
- Enterococci: 110 MPN/100 ml

March 2018

- Copper: 89.49ug/l

Legal and Regulatory Considerations

23. Water Code section 13385, subdivision (i)(1), also requires the Colorado River Basin Water Board to assess an MMP of three thousand dollars (\$3,000) for each violation, not counting the first three violations, if the Discharger does any of the following four or more times in a six-month period (hereafter "chronic violation");

- Violates a waste discharge requirement effluent limitation;
- Fails to file a report pursuant to Section 13260;
- Files an incomplete report pursuant to Section 13260; or
- Violates a toxicity effluent limitation contained in the applicable waste discharge requirements where the waste discharge requirements do not contain pollutant-specific effluent limitations for toxic pollutants.

24. Water Code section 13385, subdivision (i)(2) states: For the purpose of this section, a "period of six consecutive months" mean the period commencing on the date that one of the violations described in this subdivision occurs and ending 180 days after that date.

RE: Suspension of Permit Provisions #34 and #35 related to Seeley CWD THM aeration system

Good morning Sean,

On behalf of Seeley CWD and The Holt Group we would like to thank you and The Division of Drinking Water representatives for the work done in reviewing our THM aeration system tracer study protocols and related data. We received your email confirming suspension of permit provisions #34 and #35 as well as the related conditions. As Chief Plant Operator of Seeley CWD water treatment plant I accept those provision suspensions as well as the conditions related to baffling factor, operations, monitoring, and reporting specified in your email (email attached). We will ensure that all operations, monitoring and reporting of the aeration system is conducted in accordance with the Division approved Operations Plan and Permit provisions.

Thank you,

A handwritten signature in black ink, appearing to read "Aaron Garcia". The signature is fluid and cursive.

Aaron Garcia
Chief Plant Operator
Seeley County Water District

RE: Seeley CWD Full Permit-PERMIT NO. 05-14-18P-001

Sterchi, Sean@Waterboards <Sean.Sterchi@waterboards.ca.gov>

Thu, Apr 5, 2018 at 4:04 PM

To: Juny Marmolejo <jmarmolejo@theholtgroup.net>, "Ertas, Tuba@Waterboards" <Tuba.Ertas@waterboards.ca.gov>

Cc: "Patrick Harris (pharris.scwd@aol.com)" <pharris.scwd@aol.com>, W Op <operators.scwd@gmail.com>, Sameer Patel <spatel@theholtgroup.net>

Juny,

Thanks for sending the chlorine trends and revised protocol. As discussed this afternoon, I have reviewed all the information, and I do not believe a tracer study is needed based on the overall system design and operation, provided Seeley continues to maintain such a conservative CT ratio and the baffling curtains stay intact. Please accept this email as a suspension of permit provision #34 to conduct a tracer study using a Division approved protocol, and suspension in part for #35 to not operate the aeration system until Division approval of a tracer study report. Seeley may begin using the aeration system. Please ensure all operation, monitoring and reporting of the aeration system are done in accordance with the Division approved Operations Plan and permit provisions.

Thanks

Sean

Dechlorination Tablets & Granules (Sodium Sulfite)

BlueBook BRAND PRODUCTS

YOUR BEST VALUE!

USABlueBook Dechlorination Tablets

- Works with all major brands of tablet feeders, including Severn Trent, Norweco, JET and De Nora

USABlueBook dechlorination tablets offer a cost-effective, environmentally safe way for operators to meet the non-detectable chlorine level specified in many NPDES permits.

Shipping: Additional shipping fees apply.

SIZE	STOCK #	EACH	QTY 4+	COUNTRY OF ORIGIN
45-lb Pail	28530	135.95 \$	\$	USA

Active ingredient:	35% sodium sulfite
Size:	2 5/8" -dia tablets
pH:	alkaline
Color:	green
Odor:	mild

Bio-Neutralizer™ Dechlorination Tablets

- Environmentally safe

Bio-Neutralizer tablets are an effective, low-cost solution for reducing available chlorine in disinfected wastewater effluent. They consistently meet the non-detectable chlorine levels specified in many NPDES permits. Suitable for use in most tablet feeders.

Shipping: Additional shipping fees apply.

SIZE	STOCK #	EACH	QTY 4+	COUNTRY OF ORIGIN
45-lb Pail	45385	\$	\$	USA

Active ingredient:	35% sodium sulfite
Size:	2 5/8" -dia tablets
pH:	alkaline
Color:	green
Odor:	mild

Norweco® Bio-Max® Dechlorination Tablets

- Safer alternative for dechlorination

These inexpensive concentrated tablets provide a consistent release of sodium sulfite in response to water velocity. Use with all major brands of gravity or pressurized tablet feeders. A single 140 gram Bio-Max tablet removes 1 ppm chlorine from over 19,000 gallons of water or wastewater.

Shipping: Additional shipping fees apply.

SIZE	STOCK #	EACH	QTY 4+
48-lb Pail	28083	\$	\$

Active ingredient:	95% sodium sulfite
Size:	2 5/8" -dia tablets
pH:	alkaline
Color:	blue-green
Odor:	slight herbal

D-Chlor™ Dechlorination Tablets

- 92.3% active sodium sulfite concentration for longer life

These tablets offer a patented formula with an extra-high active chemical concentration. If properly monitored, they last longer than other brands.

Shipping: Additional shipping fees apply.

SIZE	STOCK #	EACH	QTY 4+	COUNTRY OF ORIGIN
45-lb Pail	28526	\$	\$	USA

Public Survey Questionnaire

Encuesta Pública

Thank you for participating in this survey. We are looking to interested citizens to answer some very important questions that will help the design team evaluate your desires, needs and concerns in order to move forward with the master planning process.

Gracias por participar en esta encuesta. Buscamos ciudadanos interesados para responder a algunas preguntas muy importantes que ayudarán a que el equipo de diseño evaluar tus deseos, necesidades e inquietudes con el fin de avanzar en el proceso de Planeación Maestra.

1. **Please tell us what you like most about the proposed master plan concepts for Bates Park.** *(Use the back of this sheet if you need additional space)*

Por favor díganos qué te gustó más los conceptos de la propuesta plan maestro para el parque de Bates. *(Use el reverso de esta hoja si necesita espacio adicional)*

2. **Please provide us your suggestions on what we can do to improve the proposed master plan concepts for Bates Park.** *(Use the back of this sheet if you need additional space)*

Por favor darnos sus sugerencias sobre lo que podemos hacer para mejorar los conceptos de la propuesta plan maestro para el parque de Bates. *(Use el reverso de esta hoja si necesita espacio adicional)*

3. **Illustrated are two master plan concepts for Bates Park, which do you prefer?**

¿Ilustrado son dos conceptos de plan maestro para el parque de Bates, que usted prefiere?

March 22, 2018

TO: Imperial County Independent Special Districts
FROM: Paula Graf, Analyst to LAFCO
RE: Cancellation & Rescheduling of the April 25, 2018 Meeting

RECEIVED
MAR 28 2018

BY: Sent To
All Board Members

Ladies and Gentlemen:

A meeting invitation was sent to all special districts on March 16, 2018 regarding the RDA Oversight Board, Independent Special District Selection Committee and Special District representation on the LAFCO Commission.

Special Districts Seat on the Commission:

Subsequent to then, CSDA (California Special Districts Association) brought to our attention the passing of Assembly Bill 979 amending Government Code 56332.5. This bill provides the LAFCO's with a streamlined process to seat the Special Districts on the Commission.

The ICLAFCO (Commission) passed resolution #2018-06 on March 22, 2018 (attached) initiating the process of having the Special Districts represented on the Commission.

Since there are timing constraints to this process, we are cancelling the April 25th meeting and rescheduling to May 2, 2018.

Additional information and background can be found in the attached report titled Special District Representation on LAFCO.

RDA Oversight Board Appointment:

Additional information and background can be found in the attached report titled Countywide RDA Oversight Board Special District Appointment Frequently Asked Questions and Countywide RDA Oversight Board Special District Appointments.

Independent Special District Selection Committee:

As stated previously, the Independent Special District Selection Committee has never been formed. The Committee is comprised of the Presiding Officer of each special district or an alternate as appointed by the governing board of each district via resolution. Please provide the information of the Presiding Officer or the Alternate as designated and with a copy of the resolution.

If you have any questions and to confirm attendance for the May 2nd meeting, please contact me at 760-353-4115 or pg@iclafco.com.

Sincerely,

Paula Graf
Analyst to LAFCO

RESOLUTION NO. 040918-01

**RESOLUTION OF THE GOVERNING BOARD OF THE SEELEY COUNTY
WATER DISTRICT APPOINTING PRESIDING OFFICER AND ALTERNATE
PRESIDING OFFICER**

WHEREAS, pursuant to the passing of Assembly Bill 979 amending Government Code 56332.5, which bill provides the LAFCO's with a simplified process to seat the Special Districts on the Commission; and

WHEREAS, the Committee is comprised of a Presiding Officer of each special district or an alternate as appointed by the governing board of each district via resolution;

NOW, THEREFORE, BE IT RESOLVED AND ORDERED THAT the governing body of the Seeley County Water District hereby appoints Director _____ as Presiding Officer and Director _____ as alternate Presiding Officer of Seeley County Water District for the purpose of participating in a Special District Selection Committee for LAFCO.

PASSED AND ADOPTED this 9 day of **APRIL, 2018** by the following vote:

APRIL 9, 2018

RESOLUTION NO. 2018- _____

RESOLUTION ESTABLISHING ADDITIONAL FEES AND DEPOSITS FOR ENGINEERING ACTIVITIES

WHEREAS, the Seeley County Water District ("SCWD") to consider processing deposits for various land use development activities;

WHEREAS, the Seeley County Water District is responsible for the public facilities of sanitary sewer, domestic water, parks and storm water within its Sphere of Influence;

WHEREAS, the Seeley County Water District dedicates staff and consultant time and resources to reviewing projects prior to and after submission of a formal application to SCWD and the County of Imperial;

WHEREAS, the Seeley County Water District incurs a cost associated with overseeing independent consultants who assist in reviewing project applications and pre-applications; and

WHEREAS, the deposits set forth in this resolution do not exceed the reasonable cost of providing the described services.

NOW, THEREFORE, BE IT RESOLVED AS FOLLOWS:

1. Applicability. Every application for a project results in the Seeley County Water District incurring expenses associated with the engineering review of the project. The SCWD shall not accept or receive any application without the specified deposit, nor shall the SCWD waive any expense specified herein.
2. Applications.
 - a. Applications for any development project shall be made in writing to the SCWD upon such form(s) as approved by the Seeley County Water District. The SCWD shall provide forms for such application and pre-application purposes and shall prescribe the type of information to be provided thereon. No application or pre-application shall be received and accepted unless it complies with all requirements stated thereon.

- b. Applications filed shall be numbered and shall become a part of the official records of the Seeley County Water District, and there shall be attached thereto copies of all notices, actions, maps and other information that were part of the official proceedings.
3. Deposits. Every application, or request to the SCWD for an engineering review or service procedure shall include a deposit as prescribed herein. The SCWD shall not accept or receive any such request without the proper deposit, and no deposit shall be waived by the SCWD.
4. Use/Cost of Consultants. The Seeley County Water District may use or employ outside independent consultants to assist in reviewing project applications and pre-applications, and providing expertise not available within the SCWD. The cost for such consultants shall be a charge against the project and are in addition to the fees already established by the Seeley County Water District. As consultant fees are paid, the applicant shall maintain the deposit as outlined below or at a level determined by the General Manager. Failure to maintain the required deposit shall result in a cessation in the processing of the subject application. The funds received will serve as a deposit against which actual work hours will be charged. If the actual cost incurred by SCWD exceeds the deposit, the developer shall be responsible for the additional cost. Conversely, if the actual cost incurred by SCWD is less than the initial deposit, SCWD shall refund the difference between the deposits less the actual cost.
5. Administrative Burden for Oversight of Consultants. The use of Consultants creates an administrative burden on Seeley County Water District. Land use development activities that result in SCWD engaging outside consultants require SCWD to oversee and administer contracts for services. SCWD will thereby charge an administrative fee of 15% to applicants and prospective applicants in addition to consultant expenses associated with a given project.
6. The Board of the Seeley County Water District hereby adopts the deposits for engineering activities as follows:

Item	Deposit
Pre-Application Review	\$2,000
Off-site Improvements: 3.5% of the estimated cost of improvements as approved by the District Engineer and established per Seeley County Water District Resolutions: 1. Inspection Fee and Review of tentative maps as defined within the subdivision map act, state of California, and improvements. 2. Establishing Fees for Inspection and related administrative work for subdivisions and public improvements.	

BE IT FURTHER RESOLVED, that the processing deposits will take effect 60 days from the date of this resolution, in accordance with Government Code §66017.

APPROVED AND ADOPTED at the regular meeting of the Board of the Seeley County Water District this ____ day of _____ 2018.

ATTEST:

Patrick Harris,
President
Seeley County Water District

CONDITIONAL WAIVER AND RELEASE UPON PROGRESS PAYMENT
California Civil Code Section 8132

NOTICE: THIS DOCUMENT WAIVES THE CLAIMANT'S LIEN, STOP PAYMENT NOTICE, AND PAYMENT BOND RIGHTS EFFECTIVE ON RECEIPT OF PAYMENT. YOU SHOULD NOT RELY ON THIS DOCUMENT UNLESS YOU ARE SATISFIED THAT THE CLAIMANT HAS RECEIVED A PAYMENT.

IDENTIFYING INFORMATION:

Name of Claimant: Terry Robertson, Inc. dba: A&R Construction

Name of Customer: Seeley County Water District

Job Location: _____

Owner: Seeley County Water District

Through Date: 03/20/2018

CONDITIONAL WAIVER AND RELEASE

This document waives and releases lien, stop payment notice, and payment bond rights the claimant has for labor and service provided, and equipment and material delivered, to the customer on this job through the Through Date of this document. Rights based upon labor or service provided, or equipment or material delivered, pursuant to a written change order that has been fully executed by the parties prior to the date that this document is signed by the claimant, are waived and released by this document, unless listed as an Exception below. This document is effective only on the Claimant's receipt of payment from the financial institution on which the following check is drawn:

Maker of Check: Seeley County Water District

Amount of Check: \$ 6,890.09

Check Payable To: Terry Robertson, Inc. dba: A&R Construction

EXCEPTIONS:

This document does not affect any of the following:

1. Retentions
2. Extras for which the Claimant has not received payment
3. The following progress payments for which the Claimant has previously given a conditional waiver and release but has not received payment
Date(s) of waiver and release: _____

Amount(s) of unpaid progress payment(s): \$ _____

4. Contract rights, including:

- a. A Right based on rescission, abandonment, or breach of contract, and
- b. The right to recover compensation for work not compensated by the payment

January 31, 2018
(Hand Delivered February 20, 2018)

Mr. Patrick Harris – President of the Board
Ms. Miriam Rosales – Administrative General Manager
Seeley County Water District
1898 W. Main Street
P.O. Box 161
Seeley, CA 92273

**RE: SEELEY COUNTY WATER DISTRICT– WATER TREATMENT PLANT TTHM IMPROVEMENT PROJECT
THG PROJECT NUMBER: 1186.007**

**INVOICE NUMBER
18-01-010**

For professional engineering and planning services rendered from January 1, 2018 to January 31, 2018 in connection with the above referenced project:

The Holt Group Engineering Staff conducted construction management services as per the agreement dated June 21, 2017.

- The Holt Group Engineering Staff coordinated with Seeley County Water District (SCWD) Operators and A&R Construction (A&R) regarding project scope of work, schedule of work and impacts of daily water treatment plant operations.
- The Holt Group Engineering Staff coordinated RFI and submittal reviews and responses with A&R Construction. The Holt Group Engineering Staff reviewed submittal documents with manufacturers as required.
- The Holt Group Engineering Staff traveled to the project site and observed construction activities. The Holt Group Engineering Staff prepared construction activity logs for the days construction work. The construction activity logs were forwarded to all pertinent parties.
- The Holt Group and Labor Compliance of Southern California conducted labor compliance services.
- The Holt Group Engineering Staff administered progress meetings. The Holt Group Engineering Staff prepared meeting memoranda for all meetings and distributed the memoranda to all pertinent parties.
- The Holt Group Engineering Staff coordinated and reviewed payment requests with A&R, SCWD Staff, and USDA RD.
- The Holt Group Engineering Staff coordinated with SWRCB - Division of Drinking Water in regard to project progress.

QTY	DESCRIPTION	PER UNIT	TOTAL
	Process Instrumentation Annual Calibration Services		
	GCE is proposing to service and calibrate the following meters. Each meter will be inspected for proper wiring, 4-20 output will be calibrated, each meter cleaned, any open cable penetrations on instrument will be sealed and plugged with putty to help prevent gas and dust intrusion. Flow meters will be tested per manufacturers recommendations using brand proprietary verification tools. Propellor meters will be removed from flow tube, cleaned and any worn parts or seals will be replaced with OEM parts. Samplers will have pump tubing and suction line replaced, desiccant replaced. Exterior and interior of samplers will be cleaned, pump gears will be lubed if necessary. Internal battery will be tested. Turbidity meter calibrations do not include the cost of NTU Formazine, customer can either supply the necessary Formazine or GCE will supply each required bottle and an extra charge will be added per bottle.

Proposal Submitted To:
Aaron Garcia
Seeley County Water District
Maintenance Manager

Re: Calibration of Facilities CCT Required.

PROPOSAL

SCOPE OF WORK:

DDP Electric, Inc. will supply labor and materials to complete the following:

Based on the size of water facilities for the City of Seeley, it is safe to say that we are able calibrate the flow rates for "each" facility per State Water Board Standards at \$500.

TOTAL PROPOSAL PRICE OF EACH FACILITY..... \$500.00

PAYMENT SCHEDULE Net Due in 10 Days upon invoicing

Respectfully Submitted By:  Paul Magana, Vice President

This Proposal is valid for 30 days. Please contact DDP Electric, Inc. if time has elapsed. Any item not specifically stated on this document as included is excluded.

All material is guaranteed to be as specified. All work to be completed in a workmanlike manner according to standard practices. Any alteration or deviation from above specifications involving extra costs will be executed only upon written orders, and will become an extra charge over and above this estimate. Owner to carry fire, tornado and other necessary insurance. Our workers are fully covered by Workman's Compensation Insurance. We carry Commercial General Liability Insurance through Tyler Insurance Agency @ 760 352-2611.

Acceptance of Proposal – The above prices, specifications and conditions are satisfactory and are hereby accepted. You are authorized to do the work as specified. Payment will be made as outlined above.

Zenner® Lead-Free Class II Turbine Meter, 4" Round, Direct Read, Gallons, PMTB04US-XB

E-mail this product to a friend

• Universal measuring element for easy in-place servicing

Item: 17862

Weight: 51.8 lbs

Catalog Price: \$1,733.34

Quantity: 1

Rugged ZTMB series turbine meters provide virtually maintenance-free long-term service. They're designed for potable cold water applications with moderate to high flows and occasional low flows. These meters comply with all performance and material requirements of the AWWA Standard C701, Class II In-Line (High-Velocity) Type.

Install meter in horizontal pipelines with the register facing upwards. Meters have standard round flanges.

Note: Strainers are highly recommended for installation upstream to protect the meter and improve accuracy (sold separately).

Page 396 Specs

Tech Specs

Flow range: 4 to 1250 gpm (min-max); 1000 gpm (continuous)

Lay length: 14"

Accuracy: 98.5 to 101.5%

Max operating: 160 psi (pressure); 140°F (temp.)

Case material: bronze

AER1600 Series

Cloud-Managed Networking for branch primary & application-specific networking

Cradlepoint AER1600 Series

GET A QUOTE (/COMPANY/REQUEST-QUOTE)

NetCloud Solution Packages for Branch Networks with the AER1600 LTE router are designed for the distributed enterprise to intelligently manage converged wired and wireless connectivity for a highly available "connected experience" at the Edge.

Packages include NetCloud Software, the router and 24x7 support with Limited Lifetime Warranty on hardware.

Upgrade to NetCloud Advanced for additional features such as application traffic analytics, application-aware firewall, and URL content filtering.

Item 28
1 of 2

Extend WiFi coverage with AP22 Access Points (/products/ap22).

Key Benefits

- Cloud-managed
- Dual-band, dual concurrent WiFi (802.11 a/b/g/n/ac)
- Dual modem / Multi-Carrier Support
- WWAN analytics
- Ports: 1 GigE WAN/4 GigE LAN (switchable)
- Industry-leading 4G failover
- Unified Threat Management
- Software-defined radio (supports multiple carriers)
- Purpose-built for PCI Compliance 3.1

General Information

Model:	AER1600 (WiFi), AER1650 (non-WiFi)	Cloud Managed:	Yes, with NetCloud Manager (/ncm)
LTE:	Integrated LTE Advanced LTE/HSPA+	Carriers / Operators:	All North American carriers, European and Asia Pacific operators, Saudi Arabia
WiFi:	Dual-Band Dual-Concurrent (2x2 MIMO; internal antennas) 802.11 (a/b/g/n/ac) - AER1600 only	Ethernet Ports:	5 LAN/WAN switchable 10/100/1000
PoE:	No	Material:	Plastic
Ruggedized:	No	GPS/GNSS:	Yes, with active antenna
Operating Temperature:	0 °C to 50 °C (32 °F to 122 °F)	Size:	8.3 × 6.6 × 1.7 in (210 × 167 × 44 mm) 1U height for rack mount
Weight:	1 lb 4.4 oz (.58 kg)	Fallover:	Yes
Support:	Phone support: 24 hour weekdays with emergency response on weekends, Web: 24x7, Chat: 24x5	Dual Modem Capable:	Yes, field-upgradable MC400 modem slot

FREE Leak Detection Principles and Water Loss Accountability

San Diego, CA ✓
March 20th, 2018

This workshop is sponsored by the State Water Resources Control Board and presented by CRWA

This no-cost workshop is targeted to irrigation districts, small communities and rural, disadvantaged systems. It is beneficial for Irrigation System Operators, Water Operators, and System Managers of Private, Public and Tribal Systems. It will cover the following topic:

Leak Detection & Water Loss Accountability –

- Review of preliminary survey, zones and zone measurements, pinpointing leaks, and estimating leaks.
- PowerPoint demonstration and discussion of leak detection, modern methods of leak detection, sonic leak detection, and correlation equipment.
- Water loss identification and prevention.
- Q&A

Contact Hours: 4

Registration: 8:15 am – 8:30 am Class: 8:30 am – 12:30 pm	County of San Diego, Department of Environmental Health Land & Water Quality Division 5500 Overland Ave #170 San Diego, CA 92123
